

CLIP IT SHIP IT

ATTACH SIGNS TO RACKS WITH A NEWLY DESIGNED CLIP

APPLIES QUICKLY • HOLDS TIGHT

If you are:

1. Shipping Racks of Plants to Retailers
2. Attaching signs to your racks

There's a Better Way

For years growers have been struggling to find a fast inexpensive way to attach signs to racks.

Our #RC35 Clip is the answer

Costing less than one cent each the #RC35 clip goes on fast and holds signs tight.

Unlike improvised solutions such as binder clips, scotch tape and adhesive spray which are either costly, don't hold well or are difficult to apply, the #RC35 is designed specifically for this purpose.

Texpak invented the apparel packaging clip over 50 years ago and used our technological knowhow to develop a clip for the horticultural industry. After you test the #RC35 clip we're sure you'll find it to be the best solution available.

APPLIES QUICKLY • HOLDS TIGHT • INEXPENSIVE

Invented, developed and available exclusively from Texpak, Inc., innovators in packaging since 1934
