Legend

Please locate your printer model. The corresponding icon will indicate which product can be used in your printer.

Prints up to 4" or 5" on a 5" web (material width).
TEC472M • TEC572M • TECSX4M • TECSX5M

CG408 Printer

Prints up to 4" or 5" on a 9" web (material width).
TXP3-4 • TXP3-5 • TXPSX5 • TXPSX4

Fits most SATO and Zebra printers. Print width may vary.

Thermal Printing (T)

Thermal printing is a system whereby heating of ribbon transfers print onto the surface of the print material.

Print Charges

Print less than 1"
Print 1" or greater

*Quantities per variety not ordered in increments of 1000, will be subject to a charge of \$2.00 per variety.

Flexographic Printing (F)

Often abbreviated to flexo, this is a method of printing most commonly used for packaging. A flexo print is achieved by creating a mirrored master of the required image as a 3D relief in a rubber or polymer material. A measured amount of ink is deposited upon the surface of the printing plate (or printing cylinder) using an anilox roll. The print surface then rotates, contacting the print material which transfers the ink.

Print Charges

Flexo printing

Need a QR code or a MS Tag? We can help.

QR Code is a matrix barcode (or two-dimensional code), readable by QR scanners, mobile phones with a camera, and smartphones.

The code consists of black modules arranged in a square pattern on white background. The information encoded can be text, URL or other data.

Codes can be customized to link to any page on your website.

Goes to: <http://horticulture.satoamerica.com/>

MS Tag or Microsoft Tag is an implementation of HCCB using 4 colors in a 5 x 10 grid. Additionally, the code works in monochrome. The print size can be varied to allow reasonable reading by a mobile cameraphone; for example, a Tag on a real estate sign might be printed large enough to be read from a car driving by, whereas a Tag in a magazine could be smaller because the reader would likely be nearer.

A Microsoft Tag is essentially a machine readable web link, analogous to a URL shortening link: when read, the Tag application sends the HCCB data to a Microsoft server, which then returns the publisher's intended URL. The Tag reader then directs the user's mobile browser to the appropriate website, not unlike how CueCat operated. Because of this redirection, Microsoft is also able to provide Tag analytics to publishers.

Choosing the right software package is essential to meeting the requirements of your on-demand label printing program. We'll help you analyze your needs, assist with installation, make modifications to your database, and ensure the settings are correct for your label printing process. Ask us about software and updates. CD available upon request.

TAGGIT™ Pro Labeling Design Software and Database

Whether you need to print bar codes, text, graphic images, color pictures or from a database, TAGGIT™ Pro has the features to help you design and print tags and labels with ease. • Microsoft ready • Batch printing • Full-featured database construction capabilities • Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities • Free phone support • Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

Labeling Software

TXPSX Thermal Printer

The TXPSX models contain the features that make them the best-seller in the horticultural market. The rugged powder-coated industrial strength steel case is designed for harsh environments, yet still attractive for office or store settings. These printers easily handle material thickness up to 24 mil at speeds up to 10" per second. They are available with 5" (300 dpi) print heads with 10" tag width allowance. The TXPSX models come standard with USB, Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). Ethernet connectivity is available as an option.

Item No.	Qty Pack	Printer Weight	List Price	U/M
① TXPSX5	1	63 lb.	\$4,145.00	EA

TECSX Thermal Printer

The TECSX models contain the same features as the TXPSX models however they handle up to 5" tag width. This unit is ideal for tags, labels and signs up to 5" wide. Utilizing the End-To-End Slip-On® tags, various pot tags, signs, and pressure sensitive labels makes this the most versatile printer for the money on the market. The TECSX models come standard with USB, Parallel Port, Serial Port, Ribbon Save Mode and a FETHER head (floating edge type head revolution). Ethernet connectivity is also available as an option.

Item No.	Qty Pack	Printer Weight	List Price	U/M
② TECSX5M	1	60 lb.	\$3,545.00	EA

CG408 Thermal Printer

The CG408 desktop printer is a great complement to our SX model line of printers. The CG408 can print up to 4" wide at (203 dpi), up to 4 ips. This printer is designed primarily for thinner gauge materials, such as pressure sensitive adhesive labels, our TT End-to-End Slip-On® tags, and also our ZX pot stakes. The CG408 offers a lower cost addition to help reduce changeover time for customers using different types of media. In order to utilize the full features of this printer, TAGGIT™ Pro V8.6 is the minimum version required. Optional Argox unwinder (59-C2103-011/\$29.00MSRP)

Item No.	Qty Pack	Printer Weight	List Price	U/M
③ CG408TT	1	8 lb.	\$695.00	EA

CLNX™ Series Thermal Printer

A revolutionary industrial class of thermal printers utilizing SATO's innovative user design philosophy featuring an easy to use platform for the most demanding customer application and environments.

Preinstalled operational videos viewed on a full color LED screen make training, setup and operation exceptionally easy. Other product key features include; 60° high lift print mechanism for simplified media and ribbon loading, coreless ribbon take up, multiple on-board interface connectivity, collapsible bi-fold side access cover for tight print locations, Energy Star compliant, available in 4" and 6.5" wide models- IDEAL for tags, RFID tags, labels and signage. **Call your regional SATO Authorized Master Reseller for compatible ribbons, tags, labels and additional information.**

Thermal Slip-On® End to End Tags

Low Density Polyethylene (TX, TT) 10 mil

Our Thermal Slip-On® tags are a great way of identifying your product. Once locked, it will stay on the plant material until removed. Thermal print adheres to the surface for years, and will not fade away. The dry printing process means tags are ready to use as they come off the printer. Our Thermal Slip-On® tags can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method.

Thermal Pressure Sensitive Signs Floratherm (FT) 3.2 mil

The floratherm material is designed with an aggressive adhesive and top coated face stock that resists water and sunlight while providing a superior thermal transfer print surface. The signs can be applied to smooth damp containers, flats, and trays with excellent results. Signs may be preprinted with decorative borders and your company name or logo. Signs can also be flood-coated to create additional color options.

Thermal Pressure Sensitive Labels Floratherm (FT) 3.2 mil

The floratherm material is designed with an aggressive adhesive and top coated face stock that resists water and sunlight while providing a superior thermal transfer print surface. The labels can be applied to smooth damp containers, flats and trays with excellent results. Our thermal pressure sensitive labels can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method. Labels are wound in.

Clear and Block-out Labels

All of the below label sizes are also available in a Clear Synthetic (Plastic) or with Block-out Adhesive. Clear labels are commonly used to place variable data on custom printed picture tags in an attractive manner. Block-out adhesive labels are designed to cover up whatever is behind the label. If you need to re-price or change a bar code, the Block-out Adhesive label will not allow the original information to show through. If you are interested in either application, please contact your Authorized Master Reseller for a quote.

Thermal Transfer Pressure Sensitive Paper Labels

SATO's Thermal Transfer Pressure Sensitive Paper Labels have many uses. The face sheet is thermal receptive and can also be flood coated in various colors to be used in case labeling and for product identification in warehouses. The high quality face sheet is coupled with an aggressive, permanent adhesive to insure long term adhesion of the label. If direct thermal printing is the preferred print method, SATO also offers direct thermal pressure sensitive paper labels for various applications. Let SATO fill all your pressure sensitive paper label needs.

Custom Preprinted Tags

Tags designed using a company logo or a specific marketing need. Preprinted tags can later be thermally imprinted with a UPC, price, or other variable information.

Flexo Printed

Tags are produced via Flexographic Printing with up to 3 colors.

Preprinted

Custom preprints can be produced using information, logos, or graphics that will appear on all tags of an order.

Imprintable

Once printed, these tags can be imprinted with a thermal printer, and then be ready to use immediately.

Think SATO for all of your label needs.

Pressure-sensitive labels, tickets, and tags

- Full range of paper, film, and adhesive options
- Up to 7 colors including 4-color process
- Computerized ink system
- Spot and full coverage water and UV varnish
- Full and pattern adhesive coating
- Inline lamination and Integrated Forms
- Tamper-evident labels
- Complete prepress capabilities
- Packaged in rolls, fan-fold, sheets, or stacks

Valueline Laser Printable Slip-On® Tags Laser Material (VL) 5 mil

The Valueline Laser Printable product is a 5 mil material that is top coated on both sides to provide superior imaging and longevity outdoors. Our Valueline is viable for all of your monochrome laser printing applications, but is also a solution to most of your color printing applications as well. This economically priced laser printable material can cover almost all of your laser printing needs. Our laser Slip-On® tags may be preprinted with information such as company name, website and logo for maximizing company visibility.

A VERSATILE THERMAL PRINTER

for **Under \$600⁰⁰**

247 Series Thermal Transfer Printer

Ideal for Garden Centers, Greenhouses & Nurseries

Out of the box ready to go!

The 247 thermal transfer printer can be used with or without a PC. We can design up to four formats at no charge tailored to your specification before shipping you the printer. You then use the attached keyboard to recall the formats and enter variable information. This package, including the keyboard, costs only \$845⁰⁰. If you have your own software or have only limited needs, for only \$595⁰⁰ you can purchase the printer and hook it up to your PC.

Use this printer for:

- Slip-On Tags
- Pot Tags (13 mil thick)
- Signs (up to 4" wide)
- Sticky Labels

The 247 Does It All

Slip-Ons

Sticky Labels

Pot Stakes

Signs

08320	Natural	8"/200mm	18.0 lbs/8.16 Kg	2,000	20,000

Paddle Fasteners

The most commonly used shape for garment tagging applications. Its larger end, the paddle, is designed in a way that once applied it will not come back through the hole in the tag. It also gives the consumer a larger surface to hold and pull when removing. They come in Fine Fabric, Standard, Heavy Duty and S1000 rolls.

ATTACH SIGNS TO RACKS INEXPENSIVELY

WITH A NEWLY DESIGNED CLIP

APPLIES QUICKLY • HOLDS TIGHT

Whether you're a grower who ships to large retailers or a garden center that needs to display signs for your customers the #RC35 plastic clip is the perfect solution. Clips are packed 1,000 per bag and an order for 100,000 clips costs less than \$1,000. A single bag of 1,000 clips is only \$19.95. Lower prices for larger orders.

Texpak invented the plastic clip for apparel manufacturers over 50 years ago and designed the new #RC35 plastic clip specifically for racks used in the horticultural market. "If it clips, it's Texpak."

APPLIES QUICKLY • HOLDS TIGHT • INEXPENSIVE

Invented, developed and available exclusively from Texpak, Inc., innovators in packaging since 1934

Galvanized Sign Holders

These signholders and markers are great for identifying plants and advertising specials. They utilize top-locking bars to hold signs in place. Can be a great way to display signs shown on pages 11, 18, 20, and 21.

T-Stakes and Injection Molded Stakes

T-Stakes are produced from 30 mil white polystyrene for easy insertion into most soil. They may be purchased blank or preprinted in one or two colors. Our fade resistant pens found on page 24 can be used also to write on these stakes.

Injection Molded Stakes are made of heavy-duty plastic from 55 mil to 70 mil thicknesses. These stakes are sturdy enough to be inserted into most mediums. Surfaces accept writing with fade resistant marking pens. (See pg. 24)

Pressure Sensitive Labels are available for most injection molded stakes. Please see pages 12 and 13 for appropriate labels.

Ringer and Rings

The ringer has revolutionized the auto-ringer market with its "pneumatic-like" action and ease of use. From baling and burlapping, to tagging of pots, this tool puts affordability with quality. The "D" shaped ring creates a triangle "△" when attached.

G7 Auto Ringer and Rings

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8GPL rings for the G7PL are galvanized. The "C" shaped ring creates a circle "○" when attached.

Handheld Labeling

SATO offers a variety of one, two and three line Handheld Labeling Systems, ideal for low and high-volume users. They allow you to mark thousands of items quickly and reliably. Used for price marking, mark downs, lot/batch coding and work-in-process the applications are endless. Stock, color and custom preprinted labels are available.

SATO Kendo, Judo, PB-2 and SAMARK

- Offers a wide variety of print formats
- One, two and three line hand labelers
- Label feed slots ensure positive registration
- Print band options for all types of applications
- Reliable and versatile hand labeling solutions

Simply SATO

Economical tags that offer the combination of variably imprinted information with preprinted graphics and custom branding.

On demand Printing Provides Flexibility

- Adjust item pricing to impact sales
- Add store branding messages
- Include product descriptions to match your stock

Secure Attachment

Clip tag to elastic band, plant stem, or bamboo stake or hang from string for quick and simple display.

Simple Price Removal After Purchase

Perforation allows customer to remove the price after purchase; Perfect for gifts!

Eye-catching Designs Help Move Inventory

Custom branding and logos can be added.

Care Instructions Ensure Long Plant Life

Care instructions printed on the back of tag, will help your customers take proper care of floral items.

Renewable Resource

All natural paper stock, eco-friendly inks, and optional bamboo stakes for a "green" product.

SATO has developed several stock designs and can produce custom preprinted logos or layouts. The Simply SATO tags are designed with both the retailer and the consumer user in mind and are bright, eye-catching, contain a wealth of information, and are simple to use. Retail customers will be attracted to products with the Simply SATO tags attached and purchase products for everyday or special occasions where they may not have otherwise. In addition, the tags offer retailers an economical means to enhance the image of their product and increase sales.

Simply SATO tags offer preprinted holiday and gift imagery designed to accompany bouquets, plants, or floral gifts and are available in two options. One version comes in roll form for thermal variable imprinting at the store or nursery to add UPC bar codes, descriptions, pricing, or store branding messages. The other form of Simply SATO tags are bundled individually in stacks for immediate use.

See page 27

Tree Wraps - Custom

Custom printed tree wraps, 10" x 12" and 10" x 18". Printed up to three colors featuring your company logo, care information, and planting instructions. Just wrap and staple, no messy glue strips to contend with.

The SATO RFID printer reads, writes and prints your "Smart" labels. As well as printing a visual image, text or barcode on the label surface; SATO's RFID printers read and write on the thin transponder, embedded in the label.

Whether you are required to implement a RFID compliance program for Track & Trace or POS, or looking to increase efficiency internally, turn to SATO to provide you with complete support.

Having options is very important to us. SATO remains dedicated in our efforts to use materials that are cost effective and earth friendly.

Throughout our catalog we've identified material with a recycle code, to provide options for material that's recyclable. Along with material that can be recycled, SATO offers many alternatives such as bio-friendly printing material, and paper options.

Let's keep recycling.
