## TXPEX6 Thermal Printer

The TXPEX6 is the latest addition to SATO's Horticulture printer line. Designed for the most demanding printing applications, the TXPEX6 easily handles material thicknesses up to 25 mil at speeds up to 12 inches per second. The TXPEX6 is equipped with a 6-inch (305 dpi) print head and can print tag widths up to 10 inches ladder style (sideways). This print orientation promotes faster throughput and maximizes ribbon usage. The TXPEX6 comes standard with USB 2.0, LAN 10/100 Base, IPv6 and USB Host/RTC interfaces.

ITEM	PRINTER	QTY PACK	PRINTER WEIGHT	LIST PRICE	U/M
TXPEX6	●	1	58 LB	\$3,995.00	EA
TXPEX6-RFID	●	1	58 LB	\$5,995.00	EA

ITEM	DESCRIPTION	LIST PRICE	U/M
SX1056	Thermal Printer Core Adapter	\$75.00	EA

## TECEX6M Thermal Printer

The TECEX6M printer is ideal for tags, labels and signs up to 6 inches wide. Utilizing the End-To-End Slip-On® tags, various pot tags, and pressure sensitive signs, makes this the most versatile and cost-effective printer in the Horticulture market. The TECEX6M is equipped with a 6-inch (305 dpi) print head and can handle material thickness up to 25 mil at speeds up to 12 inches per second. The TECEX6M comes standard with USB 2.0, LAN 10/100 Base, IPv6 and USB Host/RTC interfaces.

ITEM	PRINTER	QTY PACK	PRINTER WEIGHT	LIST PRICE	U/M
TECEX6M	●	1	44 LB	\$3,245.00	EA
TECEX6M- RFID	●	1	44 LB	\$5,275.00	EA

● Prints up to 6" on 6" web (material width). TECEX6M

● Prints up to 6.5" on a 7" web (material width). Fits most SATO printers. Print width may vary.

● Prints up to 6" on a 10" web (material width). TXPEX6

● Prints up to 4" on a 4.5" web (material width). CL4NX - WS4

## WS4 Thermal Printer

The WS4 desktop printer is a great complement to our EX model line of printers. The WS4 can print up to 4.09" wide at (203 or 300dpi), up to 6 ips. This printer is designed primarily for thinner gauge materials, such as pressure sensitive adhesive labels, our TT End-to-End Slip-On® tags, and also our ZX pot stakes. The WS4 offers a lower cost addition to help reduce changeover time for customers using different types of media.

Optional Argox unwinder (59-C2103-011/\$31.90MSRP)

WS412TT 305 dpi	●	1	5.5 LB	\$725.00	EA

Free NiceLabel edition with limited functionality, exclusively for use with WS4 printers. No database support.

## CLNX Series Thermal Printer

A revolutionary industrial class of thermal printers utilizing SATO's innovative user design philosophy featuring an easy to use platform for the most demanding customer application and environments.

Preinstalled operational videos viewed on a full color LED screen make training, setup and operation exceptionally easy. Other product key features include; 60° high lift print mechanism for simplified media and ribbon loading, coreless ribbon take up, multiple on-board interface connectivity, collapsible bi-fold side access cover for tight print locations, Energy Star compliant, available in 4" and 6.5" wide models- IDEAL for tags, RFID tags, labels, and signage. **Call your SATO Authorized Master Reseller for compatible ribbons, tags, labels and additional information.**

# TAGGIT® Pro Labeling Design Software and Database

Choosing the right software package is essential to meeting the requirements of your on-demand label printing program.

We'll help you analyze your needs, assist with installation, make modifications to your database, and ensure the settings are correct for your label printing process. Ask us about software and updates.

Whether you need to print bar codes, text, graphic images, color pictures or from a database, TAGGIT Pro has the features to help you design and print tags and labels with ease. • Microsoft ready • Batch printing • Full-featured database construction capabilities • Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities • Free phone support 704-644-1660 • Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

## Quickly Design and Print Barcode Labels Without IT Help

**Get started and finished with label design today.** The NiceLabel designer delivers a familiar Microsoft Word-like user experience. This means anyone can quickly design professional labels without previous knowledge of barcoding or designer training. [Learn more about label design.](#)

**Print accurately and consistently without printing errors.** Printing labels with dynamic data is different from printing other types of documents. The labeling system needs to enable production and warehouse staff to print quickly and without errors. NiceLabel comes with an all-in-one printing form that helps users print accurate labels without the risk of error. [Learn more about error-free label printing.\\*](#)

\*Free NiceLabel edition with limited functionality, exclusively for use with WS4 printers. No database support.

# SATO Horticultural RFID Solutions

RFID Tagging is an ID system that uses radio frequency for object identification and tracking purposes. A radio frequency identification (RFID) system includes:

- An RFID tag – an antenna with an integrated circuit, IC for data storage and communication with the RFID reader.
- A read/write device
- A host application for data collection, storage, processing and or transmission.

RFID uses radio waves to automatically identify and track the tags containing electronically stored information attached to plants or inserted into pots.

The SATO RFID solution allows growers to track and store data about their products. Fitting every shelf, row or plant with a RFID tag, growers will be able to monitor stages and progress of potentially every plant in a greenhouse.

Beyond the greenhouse, shipping containers with RFID identification will enable tracking, from the crop to the market.

In addition to tracking, a RFID system provides information such as place of origin or date of harvest.

## Thermal Printing (T)

Thermal printing is a system whereby heating of ribbon transfers print onto the surface of the print material.

## STANDARD LABEL DISPENSING DIRECTIONS

## Flexographic Printing (F)

Often abbreviated to flexo, this is a method of printing most commonly used for packaging. A flexo print is achieved by creating a mirrored master of the required image as a 3D relief in a rubber or polymer material. A measured amount of ink is deposited upon the surface of the printing plate (or printing cylinder) using an anilox roll. The print surface then rotates, contacting the print material which transfers the ink.

### Print Charges

Flexo printing - Call for quotation.

### Setup Charges

Plate Setup Charges may apply

### PMS colors

Additional \$85.00 charge for colors not listed.

# Thermal Slip-On® End to End Tags

LOW DENSITY POLYETHYLENE (TX, TT) 10 MIL

Our Thermal Slip-On tags are a great way of identifying your product. Once locked, it will stay on the plant material until removed, and thermal print adheres well. The dry printing process means tags are ready to use as they come off the printer. Our Thermal Slip-On tags can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method.

# Thermal Pot Tags

STYRENE MATERIAL (ZX) 13 MIL (WHITE MATERIAL ONLY),

STYRENE MATERIAL (SX) 20 MIL, HEAVY PLASTIC MATERIAL (PX) 23 MIL

Our Thermal Pot Tags can be preprinted on all materials listed using thermal transfer printing method, thermal print adheres well.

The dry printing process means tags are ready to use as they come off the printer.

Only ZX 13mil Styrene can be printed flexographically as well.

Styrene Material (ZX) and Styrene Material (SX) 

Heavy Plastic Material (PX)

# Thermal Pressure Sensitive Signs

## FLORATHERM (FT)

The floratherm material is designed with an aggressive adhesive with a face stock that resists water and sunlight while providing a superior thermal transfer print surface. The signs can be applied to smooth damp containers, flats, and trays. Signs may be printed with decorative borders and your company name or logo. Signs can also be flood coated to create additional color options.

# Thermal Transfer Pressure Sensitive Paper Labels

The face sheet is thermal receptive and can be floodcoated in various colors to be used in case labeling and for product identification in warehouses. The high-quality face sheet is coupled with an aggressive, permanent adhesive to ensure long-term adhesion of the label. If direct thermal printing is the preferred print method, SATO also offers direct thermal pressure sensitive paper labels for various applications.

# New Horticulture Products

See  
Page 2

## TECEX6M & TXPEX6 THE LATEST IN SATO ENGINEERING

The Horticulture workplace requires rugged and durable design plus solid performance. The newly engineered TEC/TXP printer continues that reputation with the EX6 series.

The EX6 series is faster, with advanced processing capabilities and increased print speed, improving efficiencies. The EX6 has enhanced capabilities, with USB and Ethernet as a standard feature. RFID & Wireless options are available, making the EX6 the most advanced Horticulture printer on the market.

## RFID INVESTMENT & ADVANCEMENT

See  
Page 8

RFID technology is used across many industries to increase productivity and improve inventory control accuracy. SATO's investments and advancements are helping more and more nurseries take advantage of this technology. With SATO's new high speed applicator, SATO can add RFID inlays from various manufacturers to multiple sizes and styles of pot stakes and slip-on tags. SATO also offers the CL4NX, TECEX6M & TXPEX6 with RFID options, making SATO your full solution provider for printing and encoding RFID tags for the Horticulture environment.

# Print Your Own Color Labels

**It's easier and more cost-effective than ever.**

If you've been considering printing your labels or signs in color, but have been putting the decision off because it was too expensive, it's time to reconsider. The cost of professional label printers and supplies has dropped significantly and it's now an economically-viable option for many customers.

 **AFINIA LABEL** | **EPSON**

**New**

C6000A

C3500

L501

If you're interested in printing in color, contact Texpak today and we can review your options with you to see if it now makes sense to switch.

*"Simple solutions to complicated problems since 1934"*

# Attractive Labels Increase Product Sales!

Which label is right for fruit, vegetables, and any horticultural product?

## Full Color Label Options

### Partial Pre-Printed

- We print most of your information such as your name, logo and address in full color
- You can choose virtually any size and shape label
- Labels come with a blank area for imprinting on-site
- You imprint item, product code, bar code or any thing you want in blank area

Partial pre-prints are ideal for companies that stock one label for many products and don't want to worry about running out of labels for a specific product. To the left is a label for Nourse Farms before and after printing.

### Fully Pre-Printed

- Order as few as 1,000 labels
- Orders of different labels with the same shape can be combined for best pricing
- Ideal if you have just a few different labels

Using a fully pre-printed label is ideal when you are ordering large quantities of the same labels.

### Self-Printed Full Color Labels

- Ultimate flexibility to print what you want when you want
- Price of full color printers is continuing to drop
- High quality printing and excellent resolution
- Ideal if you have constantly changing products and information on labels

Printing color labels yourself makes the most sense when you need small quantities of a variety of different labels.

*"Simple solutions to complicated problems since 1934"*

130 New Hyde Park Road, Franklin Square, New York 11010

1-800-645-3416

# Blank Labels

- Cost of labels is much less expensive than full or partially pre-printed labels
- Ability to print text, bar codes and graphics
- Most common sizes are in stock for immediate shipment
- Only one color can be printed. Usually black but color ribbons are available
- Certain special printers are available that can print two different colors

## PRODUCT LABEL

To the right is an example of a one-color product label printed with a blue ribbon on a white label.

## UPC BARCODES AND PRICES

Very often suppliers are required to affix a bar code, price or other information on the products they ship and sell. Our thermal printers and labels are excellent at this task. Information is usually printed on blank labels which can be either a custom color or white.

**FSMA ALERT:** With the new Food Safety Modernization Act (FSMA) in effect since 2017, it is critically important for fruit and vegetable growers to begin labeling their products according to the new rules. Texpak has been working with many customers to get them up to code and can work with your company to set you up for compliance.

# Attach signs to racks inexpensively with a newly designed clip

APPLIES QUICKLY • HOLDS TIGHT • INEXPENSIVE

Whether you're a grower who ships to large retailers or a garden center that needs to display signs for your customers, the **#RC35** plastic clip is the perfect solution.

**Clips are packed 2,500 per bag. An order for 100,000 clips costs less than \$1,000. A single bag of 2,500 clips is only \$49.88. Lower prices for larger orders.**

Texpak invented the plastic clip for apparel manufacturers over 50 years ago and designed the new **#RC35** plastic clip specifically for racks used in the horticultural market. "If it clips, it's Texpak."

**Invented, developed and available exclusively from Texpak, Inc., innovators in packaging since 1934.**

## CUSTOM SOLUTIONS TO FIT EACH CUSTOMER

Make a statement with Custom Signage and Custom Labeling for your nursery or garden center! SATO has a range of sign sizes and designs that can fit in traditional sign holders currently in your nursery. See pages 28, 29 & 38 for more details on custom weatherproof signs and labels.

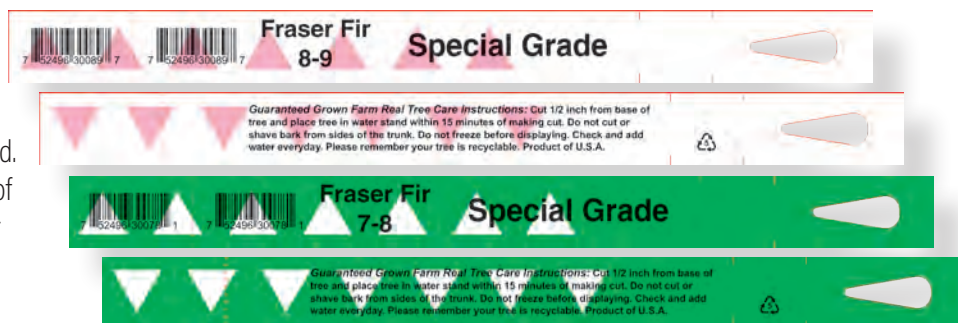

See  
Pages  
28, 29 and 38

## NICHE TAGS AVAILABLE

### See Page 37

SATO can help you prepare for the holidays! We offer custom tags perfect for your holiday trees, wreaths or garland. SATO can create and produce a variety of sizes and designs customized to fit your needs.

Large Diameter Tags available! SATO now offers Slip-On Tags with a diameter size of 2 1/2"! A perfect solution for industries with state requirements for each plant to be tagged!

## T-Stakes and Injection Molded Stakes

**T-Stakes** are produced from 30 mil white polystyrene for easy insertion into most soil. They may be purchased blank or preprinted in one or two colors. Our fade resistant pens (See pg. 34) can be used to write on these stakes.

**Injection Molded Stakes** are made of heavy-duty plastic from 55 mil to 70 mil thicknesses. These stakes are sturdy enough to be inserted into most mediums. Surfaces accept writing with fade resistant marking pens. (See pg. 34)

Pressure Sensitive Labels are available for most injection molded stakes.

Please see pages 18 and 19 for appropriate labels.

### SATO Kendo, Judo, and PB-2

- Offers a wide variety of print formats
- One and two line handheld labelers
- Label feed slots ensure positive registration
- Print band options for all types of applications
- Reliable and versatile handheld labeling solutions

## Ringer and Rings

The ringer has revolutionized the auto-ringer market with its "pneumatic-like" action and ease of use. From balling and burlapping, to tagging of pots, this tool puts affordability with quality. The "D" shaped ring creates a triangle "△" when attached.

### G7 Auto Ringer and Rings

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8GPL rings for the G7PL are galvanized. The "C" shaped ring creates a circle "○" when attached.

ITEM NO.	DESCRIPTION	SIZE	QTY PACK	WEIGHT/CASE	1-4	5-9	10-19	20+

## The Economy – A SATO Brand Story

Before 1953, "state-of-the-art" plant identification was a white plastic stake and a magic marker. Then along came Economy Label Sales – inventor of the Slip-On® tag. While the technology awed and amazed, decades later it became even more impressive when Economy introduced thermal printed plant tags, a process which truly transformed the landscape of horticulture marketing.

Meanwhile in Japan, Yo Sato, who established SATO in 1940 to manufacture and sell packaging machinery, was developing his own innovative technologies including one of the first hand labelers in 1962 and the world's first thermal transfer label printer in 1979. Today, SATO America manufactures innovative, reliable auto-identification systems and offers complete solutions to businesses by integrating hardware, software, media supplies and maintenance services.

From the beginning, both companies were on parallel paths to leadership in their respective industries: Economy in horticulture and SATO in printing solutions.

Over the years, tagging and labeling has grown to critical proportion for horticulture production and marketing requirements. Today, tracking, shipping, merchandising, marketing and the transactional accounting of plant material are synonymous with profitability.

So, it seems only natural that two industry leaders would come together under the Horticultural Division of SATO America, LLC.

And the rest is history. Economy Labels & Tags – a SATO Brand – specializes in developing and perfecting the solutions that help retailers and growers to flourish, including but not limited to:

- Slip-On® Tags, Pot Tags, Labels, Signage
- Affordable Thermal Printers and Software
- And much more
